

TECH SPECS

Product Info

Part Number	HH9909
Product Type	HEAT PUMP
Installation	External
Installation Requirement	As per AS/NZS3000 and AS/NZS3500.4.2 additional to local requirements. Unit requires good air flow additional to mt infront and mt above unit.

Technical Information

Refrigerant Type	R32
Heating Capacity (Min-Max)	2 ~ 10kw (Please refer to full technical specifications)
Continuous Flow Unit - Water Connection	DNS25 (1*)

Temperature Information

Max Temperature Of Fluid Media (Continuous)	60 deg C
---	----------

Power Information

Full Load Amps	15 A
Power Supply	230V

Size and Dimensions

Length	1115 mm
Width	415 mm
Height	898 mm
Weight (Net)	82 kg
Weight	105 kg

Features

In-room Thermostats - WiFi programmable
1.5L Built-in Expansion Tank
Touch Screen Remote Control / App for WiFi Control via Android or Iphone
Reduced Environmental Impact Refrigerant R-32

Warranty

Warranty Information	Heat Pump - 5 year warranty
